TUGAS PERTEMUAN 9

Nama: Muhammad Danish Athaurrahman

Kelas: TI – 1C

1.

Welcome | Latihan1.java | Latihan2.java

Latihan1.java > Latihan1 > main(String[])

```java
import java.util.Scanner;

public class Latihan1 {
    Run | Debug
    public static void main(String[] args) {
        Scanner input = new Scanner(System.in);

        double totalJam = 0;
        double jamBelajar;

        for (int hari = 1; hari <= 7; hari++) {
            do {
                System.out.print(
                    "Masukkan jam belajar hari ke-" + hari + ": "
                );
                jamBelajar = input.nextDouble();

                if (jamBelajar > 10) {
                    System.out.println(
                        "Jam belajar maksimal 10 jam. Masukkan ulang!"
                    );
                }

            } while (jamBelajar > 10);

            totalJam += jamBelajar;
        }

        System.out.println(
            "Total jam belajar selama seminggu: " + totalJam + " jam"
        );

        input.close();
    }
}
```

Mulai
totalJam = 0
hari = 1
hari ≤ 7?
Ya
Masukkan jam belajar
hari ini
jamBelajar > 10?
Ya
Tampilkan pesan:
input tidak valid
Tidak
Tidak
totalJam = totalJam
+ jamBelajar
hari = hari + 1
Tampilkan total jam
belajar selama seminggu
Selesai

2.

Latihan2.java > Latihan2

```java
import java.util.Scanner;

public class Latihan2 {
    Run | Debug
    public static void main(String[] args) {
        Scanner input = new Scanner(System.in);

        int nomorPegawai = 1;
        double jamKerja;
        double gajiHarian;
        double bonus;

        for (;;) {
            System.out.print(
                    "Masukkan jam kerja pegawai ke-" + nomorPegawai
                            + " (negatif untuk berhenti): ");
            jamKerja = input.nextDouble();

            if (jamKerja < 0) {
                System.out.println("Program dihentikan.");
                break;
            }

            System.out.print("Masukkan gaji harian: ");
            gajiHarian = input.nextDouble();

            if (jamKerja > 8) {
                bonus = gajiHarian * 0.20;
            } else {
                bonus = 0;
            }

            System.out.println("Jam kerja: " + jamKerja + " jam");
            System.out.println("Gaji harian: " + gajiHarian);
            System.out.println("Bonus: " + bonus);
            System.out.println("------------------------");

            nomorPegawai++;
        }

        input.close();
    }
}
```

Mulai
Masukkan jam kerja
jamKerja < 0?
Ya
Selesai
(pegawai tidak diproses)
Tidak
Masukkan gaji harian
jamKerja > 8?
Ya
Tidak
bonus = gajiHarian
x 20%
bonus = 0
Tampilkan bonus pegawai
